SUMMARY

Software Engineer with 6 months of professional experience and 1+ year of freelance experience in web application development and technology services. Skilled in React, Next.js, Node.js, Angular, Laravel, PHP, MySQL, and Prisma ORM. Experienced in developing and maintaining web applications, troubleshooting technical issues, supporting system functionality, and integrating databases. Strong understanding of OOP concepts, MVC architecture, and client-server systems. Capable of providing technical support, resolving software issues, and collaborating with teams to deliver reliable, scalable, and maintainable technology solutions.

TECHNICAL SKILLS

- JavaScript / TypeScript
- React
- Angular
- Nodejs
- NextJs
- Java
- Python Flask.
- Laravel
- MySQL
- Prisma ORM
- Figma , Adobe Photoshop, Adobe AI
- Object-Oriented Programming
- MVC Architecture
- JWT Authentication
- Git / Version Control

PROFESSIONAL EXPERIENCE

Intern Software Engineer , Cybernetic Technologies Pvt Ltd

August 2025 - February 2026

- Worked on full-stack web application development using React.js, Angular, Node.js, and Laravel.
- Developed and integrated RESTful APIs with MySQL and Prisma ORM for secure data handling.
- Implemented frontend features and backend logic for enterprise-level systems.
- Collaborated with team members to deliver scalable, maintainable, and high-quality software solutions.
- Interacted with clients to gather requirements, present demos, and support deployments

EDUCATION

Bsc in Computer Science (UG)

Trincomalee Campus , Eastern University, Sri Lanka

G.C.E.Advanced Level - 2020

Combined Mathematics - C

Physics - C

Chemistry - C

PROFESSIONAL PROJECTS

- **ERP System - Cybernetic Technologies Pvt Ltd.**
Develop and Maintain the ERP System using Angular, Prisma ORM , Nodejs with TypeScript and MY SQL.
- **Inventory Management System - Cybernetic Technologies Pvt Ltd.**
Develop the Inventory management System System using React, Laravel with MySQL.

ACADEMIC PROJECTS

- **In-house Patient Management System for Private Hospital**

Built a healthcare management web application with React.js frontend and Flask backend, implementing patient registration, treatment tracking, real-time chat functionality, and automated PDF report generation with secure password hashing and RESTful APIs.

- **POS System**

A full-stack Point of Sale web application built with Next.js 16, React 19, TypeScript, and MySQL. Features include product/inventory management, sales processing, customer tracking, user authentication (JWT), and business reporting. Styled with Tailwind CSS and Shadcn/UI components.

- **Farm-Management-System**

Full-stack farm management web application built with React, Flask, and MySQL. Enables farmers to track expenses, manage crops, and monitor stock inventory.

- **Cabana Haven Design** (frontend)

A responsive resort booking platform built with React, TypeScript, Tailwind CSS, and Vite. Features booking system, room showcase, and admin dashboard.

- **Cabana Haven Design** (backend)

Developed a RESTful API backend using Laravel 12 for a hotel booking and reservation management system, featuring secure authentication with Laravel Sanctum, CRUD operations for bookings, and admin user management.

QUALITIES

- | | | |
|----------------|---------------------|-----------------------|
| • Teamwork | • Problem Solving | • Attention on Detail |
| • Adaptability | • Critical Thinking | • Communication |
| • Leadership | • Time Management | • Creativity |
